

1. Klove serves me as a resident of this community with music that is uplifting to both myself and my teenage son. It provides a positive radio experience for many in the community.
2. We would not have any contemporary Christian music consistently available in the valley if Klove was displaced.
3. I believe that Klove provides a great service to the community by providing positive contemporary Christian music to the Valley of the Sun. Many people listen to it here and it provides the best and newest Christian music available. I have personally counted on the station during times of distress to not feel alone. It would be a great tragedy if this station were no longer available here.
